

Songling Wang (王松灵) Spells His Name as "Songlin Wang" on Publications

Songling Wang (王松灵), a leading dental scientist in China, and a fellow of the Chinese Academy of Science, has published over 200 academic articles until recently. However, on most of his publications, Wang spells his name as "Songlin Wang" instead of "Songling Wang", which is likely due to his dialect accent.

The 5GH team uncovers the connection between "Songlin Wang" and Songling Wang, because the author "Songlin Wang" has a same e-mail address (slwang@ccmu.edu.cn) as that of Songling Wang with the Capital Medical University, China.

Although this misspelling was not intended to cover up misconducts, it causes great inconvenience for the readers to recognize that Songling Wang is one of the authors, the 5GH team would like to ask the publishers/journals to correct those records.
